

Pre-Assembled Burner Packages

The BGR Rush Package is designed to provide an all-in-one combustion solution for tank heaters, free water knockouts, boilers, line heaters, de-hys and treaters.

The pre-assembled package integrates a BGR flame arrestor, fuel valve train, ACL burner management controller with an ACL high efficiency all CSA B149.3 standards. This fully tested (leak tested, function tested, pressure switches pre-set) system increases operator safety and drastically reduces installation time, resulting in cost savings. The BGR flame arrestor is classified as Group D (IIA), promoting optimal fuel to air ratio, clean air supply and lower noise pollution.

Package Options:

- BMS Controller – ACL-CSC200 or ACL-CSC400
- ESD Valves – Asco or Peter Paul
- Voltage – 12 or 24 VDC
- Solar Package
- Spool Extension
- Hinge Left or Hinge Right
